DECLARATION I hereby declare that I am the owner/owner's agent of the above animal(s) and the information given above is correct at the time of going to sale to the best of my knowledge. I further declare that the Auction Lot Numbers are correctly matched with Official Ear Tag Numbers and that passports relating to these lot numbers are correctly matched or I authorise the auctioneers to act on my behalf without any responsibility attached to this action in respect of ear numbers and passports. No animals have moved onto my holding or returned to my holding from a market sale in the last 6 days. (This rule does not apply to a collection centre). I agree to abide by the strict Biosecurity rules displayed at the auction mart. I confirm that I have identified any *imported animals* which must be declared by the auctioneer at the point of sale. Cattle on the holding are not under movement restrictions for other animal disease or public health reasons. Withdrawal periods have been observed for all veterinary medicines and other treatments administered to the animals while on this holding and previous holdings. To the best of my knowledge the animals are not showing signs of any disease or condition that may affect the safety of meat derived from them. No analysis of samples taken from animals on the holding or other samples has shown that the animals in this consignment may have been exposed to any disease or condition that may affect the safety of meat or to substances likely to result in residues in meat.

TB LEGISLATION All cattle over the age of 42 days within a 1-2yr testing parish must be accompanied by a copy of a negative TB test certification within 60 days prior to movement. Vendors presenting cattle in the market that have not had a clear TB test are liable to prosecution. Gisburn Auction Mart will take no responsibility for ineligible cattle entering the market and the vendor indemnifies the Auction mart and its servants from any consequential loss claims.
